SWIMMING POOLS

STARLINE DESIGN SWIMMING POOLS

Starline's philosophy

Having a swimming pool in your garden or home is something magical, and is a delight to see. A swimming pool offers a place to have fun - with family and friends at any moment of the day. Spending time by the pool will allow you to fill your precious free hours with quality time and add an extra dimension to your life.

In designing our pools, Starline's focus is your needs in terms of the aesthetics and ergonomics of your swimming pool. The Starline design is characteristically pure because of its minimalism, modern form language and very high quality through its use of the best materials. These design principles were carried through in every detail of the pool.

Enjoy a Starline pool with a serene mood.

AN EXTRA DIMENSION TO YOUR LIFE

A luxury feeling

Owning a swimming pool will bring a whole new dimension to your life. A lifestyle full of enjoyment, fun, a luxury feeling of wealth and faraway places. A life which you can spend at your beautifully installed swimming pool in a stylish garden or indoor space.

Get the real jetset feeling, have a drink with friends during your evening garden party at an exquisitely lit swimming pool. Or enjoy an elaborate lunch with family, while the children play in the pool. Lie out in the sun with your girlfriends at your poolside with your favourite book and music on in the background. There are plenty of these kinds of scenarios, and this could all be yours in your own homey living environment.

A LIFESTYLE

STARLINE SWIMMING POOLS

Swimming Pool Lines

Introducing the lovely Starline pools! Starline swimming pools are divided into six swimming pool lines. Starline also has a swimming pool for the little ones, the trendy Starline Junior children's pool. All Starline swimming pools are included in this brochure.

NEXXT Line	Stylish and high end
NOVA Line	Pure, aesthetic and contemporary
Dynamic Line	Luxury entrance
Carré Line	Timeless with a classical tint
Romana Line	Classic beauty
Ergonomic Line	For a smaller garden
Junior Starline	A real swimming pool for kids

STYLISH AND HIGH END

NEXXT Line

The exclusive swimming pools in our NEXXT Line have a spacious visual effect in their ground level, flowing water line. Their height makes the reflecting water surface seem to melt into its surroundings. The water runs over the edge and silently disappears in a subtle open seam in the edging stones. With its architectural design, this stylish swimming pool line exceeds all expectations. NEXXT swimming pools can be personalised with floating design steps, available in colours that match your pool. Optional corner housing in the pool offers the option to incorporate a built-in Roldeck system. The NEXXT Line swimming pools exude allure and elegance.

Measurements*

NEXXT 80	: 8 x 4.10 m
NEXXT 100	: 10 x 4.10 m
NEXXT 120	: 12 x 4.10 m

*All NEXXT swimming pools have a standard depth of approximately 1.6 metres.

NOVA Line

For our NOVA Line, we brought the swimming pool concept back to basics, resulting in sleek, minimalist lines and corners. This swimming pool line is characterised by a beautiful high water line, coming up to right under the edging stones. The three largest pools can be personalised with floating design steps, available in colours that match your pool. A Roldeck system can also be installed with corner housing in the pool itself. The compact NOVA 60 pool can be personalised with wide NOVA steps, which offer space for a built-in Roldeck system. NOVA swimming pools exude pure simplicity. It is a swimming pool line of absolute natural beauty.

Measurements*

NOVA 60	: 6 x 3 m
NOVA 80	: 8 x 4.10 m
NOVA 100	: 10 x 4.10 m
NOVA 120	: 12 x 4.10 m

*The NOVA 60 pool has a standard depth of 1.5 metres. All other NOVA swimming pools have a standard depth of approximately 1.55 metres.

PURE, AESTHETIC AND CONTEMPORARY

Dynamic Line

The Dynamic swimming pool line is characterised by its various entrance options. You can choose between two different types of corner steps. Both can be installed in the left and right corner. A special feature is the spacious rectangular walk-in steps with a lounge plateau just below the water level. A great place to lie out while you're only partly in the water. Dynamic pools are standardly equipped with a pit in the back of the pool in which a Roldeck system can be installed. The safety edge at the top of the pool wall provides extra support for when weight is put on a closed swimming pool cover. The edges along the walls give you the option to take a breather in between swimming.

Measurements*

Dynamic 110 : 11 x 4 m

*Dynamic swimming pools have a standard depth of 1.5 metres.

LUXURY ENTRANCE

AN OPEN QUALITY

Carré Line

Carré swimming pools are characterised by their spacious Carré walk-in steps over the whole width of the pool. These wide steps make walking into the swimming pool very pleasant. Its design is timeless with a classical tint. A Carré swimming pool can be installed with or without a pit in the back of the pool. The pit is for installing a Roldeck pool cover. Once installed, it is completely invisible when the cover is open. There is a safety edge just under the water level, which provides support through a closed pool cover in the event that children or pets enter the area. The edges along the walls give you the option to take a breather at the pool side.

Measurements*

- Carré 80** : 8 x 4 m
- Carré 90** : 9 x 4 m
- Carré 100** : 10 x 4 m

*Carré pools have a standard depth of 1.5 metres.

CLASSIC BEAUTY

Romana Line

The Romana Line swimming pools come with classic half-moon walk-in steps with 'shoulders'. The top step has a start block in the middle, in which a jetstream can be installed. The Romana Line is the model for your rural or Mediterranean style garden. Romana pools are available with or without a pit in the back of the pool for invisible housing containing a Roldeck pool cover system. When the pool cover is opened, it is completely invisible. The safety edge around the walls is just under the water level and provides extra support to a pool cover in case extra weight is put on it. If you need to take a short break from swimming, you can stand on the edge along the walls.

Measurements*

Romana 80 : 8 x 4 m

Romana 90 : 9 x 4 m

Romana 100 : 10 x 4 m

*Romana swimming pools have a standard depth of 1.5 metres.

Ergonomic Line

The compact Ergonomic Line swimming pools are perfect for a smaller garden. Ergonomic pools are come in two standard models, one rectangular model with or without corner steps and various depths, or a rectangular model with half-moon steps. There are various options for a pit in the back of the pool for invisible housing containing a Roldeck pool cover system. When the pool cover is opened, it is completely invisible. In addition, it has a safety edge that comes up to just below the water level and provides extra support to a closed pool cover in case extra weight is put on it from above. The edges along the walls give you the option to take a breather between swimming. All in all, it's a very versatile swimming pool.

Measurements*

Ergonomic 70	: 7 x 3.5 m	Rectangular model without a pit
Ergonomic 70	: 7 x 3.5 m	Rectangular model with a pit
Ergonomic 77	: 7.7 x 3.5 m	Model with half-moon steps

*Ergonomic 70 swimming pools without a pit have a standard depth of 1.4 metres. *Ergonomic 70 swimming pools with a pit have a standard depth of 1.5 metres. *Ergonomic 77 swimming pools have a standard depth of 1.4 metres.

COMPACT AND PRACTICAL

Junior Starline

The Junior Starline children's pool is a real swimming pool for children aged 2 to 7. This round children's pool can be built into the garden, just like the adult swimming pools. The integrated steps with anti-slip profile ensure that children can get in and out of the pool safely and easily. The steps are also a popular place for sitting down and dipping your feet in the water. This unique and trendy children's swimming pool is made of 100% high-quality composite material and can even be transformed into a trampoline. Nowhere else will you find such a high-quality children's pool!

Measurements

Junior Starline : 2.5 x 0.5 m in diameter

FUN FOR THE LITTLE ONES

A SAFE SWIMMING POOL

Safe for children and pets

Safety first of course. Starline swimming pools and pool covers have a number of safety measures. A closed Starline Roldeck pool cover tremendously increases safety. It comes with a blocking mechanism which automatically locks the system fifteen minutes after its last use.

The Dynamic, Carré, Romana and Ergonomic swimming pool lines are standardly equipped with safety edges to support the pool cover in case extra weight is put on it from above. An extra option is the child safety lock. With this lock, the Starline Roldeck can be attached and locked to the swimming pool wall. This will allow you to have an extremely safe cover in the event that children or pets enter the area of the covered pool. All Starline walk-in steps are standardly equipped with anti-slip steps.

A swimming pool in action

For a pool to work well, you must make use of the necessary equipment. Clean, sparkling water is essential to hygiene and comfort. And crystal clear water is of course very inviting at that. Furthermore, you might want to heat your swimming pool for even more comfort. You might also want to think about automating certain aspects.

Starline has a wide range of swimming pool equipment. This equipment is coordinated with the Starline swimming pools. You can read more in the brochure on Swimming Pool Technology. For advice, please visit the Pool & Lifestyle Centre in Valkenswaard or visit a Starline dealer near you.

A total concept

For over four decades, Starline has built up knowledge and experience in the development and production of Monoblock swimming pools. Starline Monoblock swimming pools consist of one form. Using advanced production technology, these are made from high-quality composite materials in an extremely sustainable structure. The smooth, sleek walls are very aesthetic and easy to maintain.

The fact that the swimming pools are already equipped with various parts and accessories makes for only a short installation time at your home, allowing you to enjoy your own pool as soon as possible. In sum, we can guarantee you that a Starline swimming pool is of the absolute best quality.

- 1 Skimmer
- 2 Smooth Vinylester wall

- 17 Roldeck slat cover

FROM A TO Z, EVERYTHING YOU NEED TO MAKE YOUR POOL PERFECT

Materials and structure

Starline swimming pools are made of high-quality composite material. Long processes of development and innovation resulted in a material with a very smooth, hard surface making it anti-bacterial. With the Vinylester top layer, it is near indestructible. This top layer also determines the colour of the swimming pool and comes in the five original swimming pool colours Blue, Soft blue, White, Soft grey and Antra. The Exterior Finish Coating ensures the completely insulated and waterproof outer layer.

Low structure

1	Top layer	Vinylester
2	Interim layer	Damming Vinylester
3	Insulation layer	Vinylester
4	Construction layer	Vinylester
5	Insulation layer	High-density PU foam
6	Cover layer	Exterior Finish Coating

Structural reinforcement

7	Side wall	Structural reinforcement
8	Top edge	Structural reinforcement
9	Bottom	Honey comb insulation layer
10	Corners	Woven fibreglass reinforcement mats

THE BEST MATERIALS

Unique qualities

- Six swimming pool lines
- Contemporary design swimming pools
- Luxury design options and steps
- Safe and ergonomic
- Low-maintenance
- Advanced production technology
- Durable quality
- Short installation time at home

QUALITY THROUGH YEARS OF EXPERIENCE

Personal wishes

You can personalise your pool even more with for example a jet stream for an intensive swim workout, a waterfall shower and/or underwater lighting in any chosen design. This way you can make your swimming pool complete, according to your personal taste and wishes regarding entertainment. This ensures extra diversity in the use options of your swimming pool.

For protecting your pool against the elements, safety when it comes to children and pets and limiting maintenance and energy costs, your pool can be fitted with an automatically controlled Roldeck swimming pool cover. Starline offers a wide range of swimming pool covers in various colours, materials and features, which fit almost all swimming pools.
